**STEPS TO CALCULATE WCCC ELIGIBILITY AND COPAYMENT:**

1. Determine TOTAL income. This is the sum of all gross earned and unearned income.
2. Determine COUNTABLE income. This is TOTAL income minus any child support PAID OUT.
3. Compare COUNTABLE income to Column 2. If amount is greater, client is not eligible. If COUNTABLE income is below column 2 then check column 3, 4 or 5 for correct income range and copayment.
